## ZODIAC

We are 12. No, that's not exactly true. We were 13 at one stage, but then they scratched our brother, so now we are 12. And what a weird bunch we are. Animals and people and animal-people and things. We predict your future and your past and your fortune. We are responsible for your character, your taste and your hobbies. We might be the first thing you read in the morning. We are really popular. And though many people will say, that they don't believe, they still have a daily peek. We know that you are curious now. So here it goes:

- Bold, ambitious, impatient and moody—might make a good pick pocket ...
- Reliable, practical, stubborn and uncompromising—great drug dealer
- Curious, adaptable, inconsistent and indecisive—burglar
- Tenacious, emotional, pessimistic and manipulative—fraud
- Generous, passionate, self-centered and lazy—hacker
- Loyal, hardworking, overly critical and worrying—cult leader
- Diplomatic, social, self-pitying and carries a grudge—stalker
- Resourceful, brave, jealous, secretive—con artist
- Generous, great sense of humor, impatient and promises more than can deliver—murderer
- Responsible, disciplined, condescending and unforgiving—assassin
- Original, independent, temperamental and aloof—money launder
- Compassionate, artistic, fearful and overly trusting—violent protest leader.

So have a guess, who is who and who are you?

Believe us, it's all true, 100 %.
